

Annual Programme **Tunisia in Transition**

The research project “Tunisia in Transition – International Relations” has started its third and final year in 2015. The project that involves Political, Legal, Social, Communication and Cultural Sciences from the Universities of Carthage, La Manouba, Tunis-el Manar, Passau and Sousse will therefore focus on the publication of a book on “The new Tunisia in International Relations.” This will be the pinnacle of the expertise accumulated throughout the cooperation. The final call for contributions will ensure that the crucial issues such a book must include are covered.

In order to provide thorough and well-presented research results at the end of the year, we will have two scientific and two feedback workshops in Tunis and Passau this year.
